2018 3rd International Conference on Electromechanical Control Technology and Transportation (ICECTT 2018)

The 2018 3rd International Conference on Electromechanical Control Technology and Transportation (ICECTT 2018) will be held on January 19-21, 2017 in Chongqing, China. ICECTT 2018 is to bring together innovative academics and industrial experts in the field of electromechanical control technology and transportation to a common forum. The primary goal of the conference is to promote research and developmental activities in electromechanical control technology and transportation and another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working all around the world.

This AEIC Series Conference has been included as key conference by CNKI and ScienceNet which in the charge of Chinese Academy of Science.
